- 4000lm @ 40W, 5000lm @ 50W
- 230V ~ input; PF corrected
- Full photometry available upon request

SIMPLE INSTALLATION

Simple clip-in light module allows for installation and removal of the baseplate and access to the geartray.

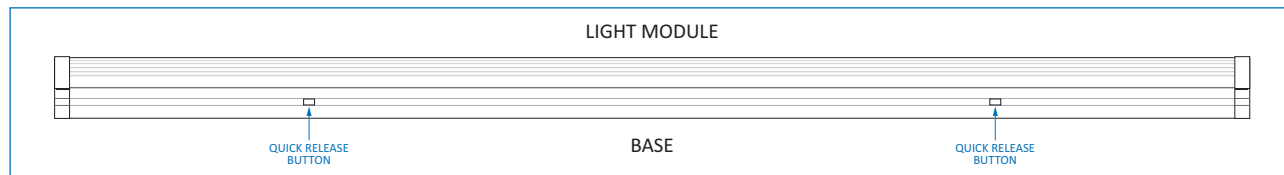

Push buttons on the body to release the light module from the base.

Simply lift-off the light module for easy access to the geartray.

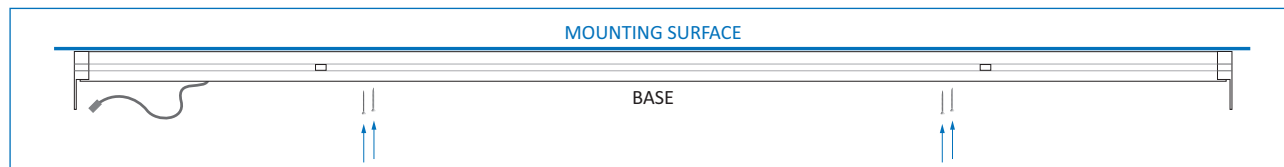

SURFACE MOUNT INSTALLATION

STEP 1

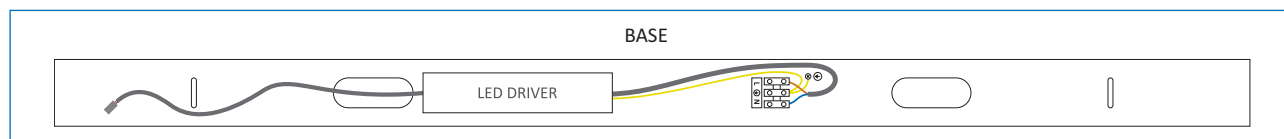

Press the quick release buttons on the side of the luminaire base to release the light module.

STEP 2

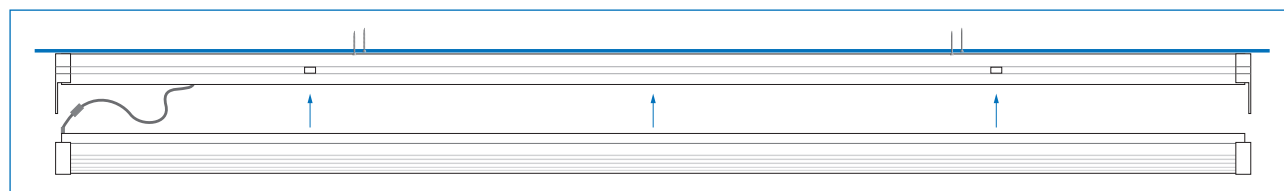

Disconnect the electrical plug. Use the fixing screws (and suitable anchors) to fix the base to the mounting surface.

STEP 3

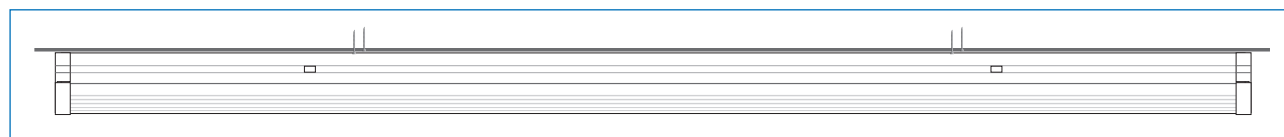

Connect the mains supply to the LED driver via the terminal block.

STEP 4

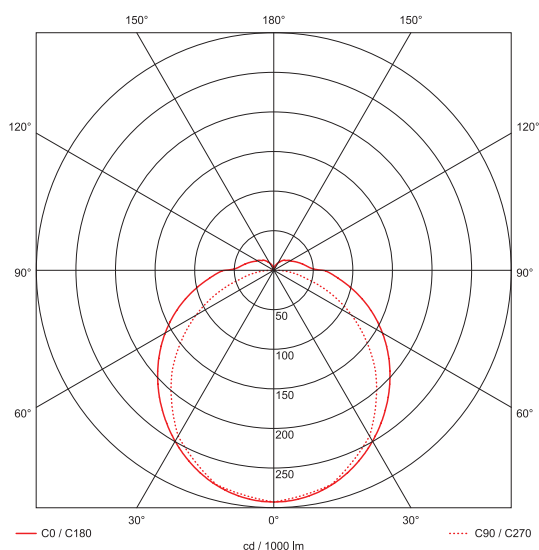

Reconnect the electrical plug.

STEP 5

Reset the light module. Installation is complete.
